

Miguel Martins Quinteiros

Full-stack developer

« I am passionate about my field and eager to contribute to innovative projects within a dynamic team. I am involved in every stage of a web product's lifecycle: from interface design (wireframing, UI/UX) to full-stack development, ensuring its quality (testing, technical documentation) and visibility (digital marketing, SEO). »

WORK EXPERIENCE

Global ID, Lausanne — Media Engineer & Full-Stack Developer (Bachelor's Project)

Apr. 2024 - Sept. 2024

- Design and development of a secure API and a hybrid mobile app for scanning QR codes and NFC tags.
- Integration of authentication and data protection mechanisms tailored to the project's cybersecurity challenges.
- Delivery of a functional MVP enabling the company to approach suppliers and demonstrate the product's feasibility.
- Stack: Node.js, Express, Prisma, Angular, TypeScript, Ionic, Nginx, Swagger, and Docker.

Galenicare Management SA, Bern — Mediamatician Trainee

Feb. 2017 - Jul. 2017

- Produced weekly print materials (flyers, posters, business cards) for the group's branches. Managed the entire process from file preparation to printing, packaging, and shipping.
- Designing logos and visuals for the entire group, in accordance with the established visual identity and graphic guidelines.
- Creating digital visuals (banners, images, GIFs) and performing simple web adaptations (HTML, CSS, JavaScript) for online promotional campaigns.

Prona SA, Yverdon-les-Bains — Mediamatician Trainee

Aug. 2016 - Jan. 2017

- Managed visual and event communication, provided IT and administrative support, and led internal HTML training sessions.

EDUCATION

Bachelor of Science (BSc) HES-SO in Media Engineering

Sept. 2021 - Sept. 2024

HEIG-VD, Yverdon-les-Bains
